Subject: Hudson Terminal Corporation, Providence RI/Clean Air Act Reporting Requirement and Testing Order

Hi Tom – I'm following up on our previous telephone discussion regarding the above referenced matter. As discussed, Hudson, with Triton's assistance, are working to gather the information requested in the Order, including preparation of a Testing Protocol. Although we have all been working diligently to pull everything together, we have concluded that we will not be able to completely do so by March 13 (due date based on receipt date). This is largely based on the complexity of the information requested, date of original construction of the facility in 1962, and vacation schedules of Hudson principals and me. As such, we respectfully request a four (4) week extension to be able to prepare a comprehensive and professional response.

I had envisioned that this might end up being the case on our initial call, but worked hard to avoid it. Unfortunately it just did not work out. As such, we would greatly appreciate your understanding. Please let me know if this is acceptable as soon as possible (email response is fine).

Many thanks,

-C
